WILLIAM HALL PASSES AWAY

Well Known and Honored
Washington Tp. Citizen
Goes to His Reward.

Was the Father of the Consolida-
ed School System in Ind-
iana—His Career.

Hon. William S. Hall, justice of the peace, former trustee and Rush county's Representative in the State Legislature, and father of the consolidated school system in Indiana, died at his home in Washington township at 8 o'clock this morning of a complication of diseases, at the age of 91 years. He had been ill for over four months and displayed wonderful vitality.

William S. Hall was a native of Butler county, Ohio, and was born on the present site of the city of Hamilton on March 8th, 1814. His lineage is accurately traced back to 1720, when Tobias Hall, a native of England immigrated to the eastern shores of America, probably settling in what is now New Jersey. The next in line is Joseph Hall, the youngest son of Tobias Hall, who was a soldier in the Revolutionary war. In 1796, he moved to Butler county, Ohio, and his son, Thomas Hall, was the father of Squire W. S. Hall. Thomas Hall served as a volunteer in the War of 1812, and in 1818 removed to Fayette county, Indiana. Indians were plentiful then who annoyed Mr. Hall by killing his stock. The Halls were like many other pioneers seeking homes in the wilderness, without money. They were compelled to rough it.

William S. Hall was the oldest of a family of nine children and during his boyhood and youth attended but few terms of school, averaging two months to the term. Up to the age of seventeen, his health had been poor, and he resolved to learn a trade. He went to Cincinnati and engaged with his uncle, Joseph Hall, as an apprentice to learn the trade of cabinet maker. In March, 1835, he completed his apprenticeship and worked with his uncle until the following December, when he removed to Rush county, locating where he lived in Washington township and engaged at his trade. In February, 1839, he was elected justice of the peace for Washington township, and served until 1847. In July of that year he was nominated as a candidate for representative in the State legislature on the Democratic ticket, but on account of a large Whig majority, was defeated. In 1853 he was elected trustee of Washington township, and held the office until 1862, when he resigned the office and accepted the nomination as representative to the State legislature. He was elected by a good majority and served during the exciting session of 1863. At the close of his term as representative he was again elected trustee and served continuously until 1878. While trustee he took a great interest in the schools of his township. He caused to be erected many of the school buildings found in Washington township at the present time, the last being the graded school building in Raleigh.

On January 28th, 1841, he was united in marriage with Miss Nancy M. Legg, daughter of Samuel Legg, a pioneer of Rush county. Eleven children were born to this union, four of whom died in infancy and four in October, 1860, with diphtheria. The three remaining children, George W., Frank J., and Lefe G., are still living. Mrs. Hall died in 1859 and in 1860, Mr. Hall was again married to Mrs. Malinda Knotts, eldest daughter of Levi Hatfield. Five children were born to this last marriage. William A., Ada E. and Robert—the others having died. On July, 1887, Mr. Hall lost his second wife, and has since then remained a widower.

Squire Hall continued to reside on the old homestead in Washington township where he has spent so many years of his long and useful life. He drafted the plans for his very unique and conspicuous residence, which is octagonal in form, and one of the most practical houses in the township. During his long residence in the county he had surrounded himself with a host of friends who can testify to his many acts of benevolence and hospitality. He was always ready to assist the poor and needy, if deserving, and administered on more estates than any other man in this locality.

THE STATE OF TRADE

Bradstreet's Report Shows Some
Unfavorable Conditions
This Week.

New York, May 20.—Bradstreet's weekly review of trade today says: Adverse weather conditions are a leading source of complaint this week, but clearing skies now reported throughout a large area of the country bid fair to reinforce existing optimistic views as to late summer and fall trade. Cold or rainy weather, except in a few sections, has affected general trade, further retarded an already late corn and cotton planting season, given rise to rather less optimistic winter wheat crop reports, and bullishly stimulated grain, pork and cotton prices. The great barometer of trade and industry, the iron trade, is less active for the cruder forms, despite price concessions, but the disposition in usually well informed quarters is to regard this as an instance of the general breathing spell, which is noted in many lines of wholesale business. Demand for finished products remains good as a whole; places for shipbuilding, structural material and builders' hardware still in a high degree active.

DR. PETTIJOHN TAKES HIS LIFE

Noblesville Physician, Well
Known Here, Commits
Suicide.

A despatch from Noblesville, dated May 18th, says: Dr. J. B. Pettijohn, fifty-seven years old, was found dead in his office this morning. He committed suicide during the night by cutting his own throat with a pocket knife which he had borrowed from a friend several days ago. He was clad only in his night clothes. The floor and walls were smeared with blood. He had evidently paced the floor after cutting his throat and fell unconscious from the loss of blood.

Dr. Pettijohn has been despondent for two weeks, as the result of poor health, and it is thought this prompted him to take his life. He was a brother of Dr. Beecher Pettijohn, a physician of Indianapolis. He possessed literary talent and was known throughout the State as a writer of fiction.

The above is a sad case. Dr. Pettijohn was a brilliant fellow, being a fine physician and one of the most companionable gentlemen that anyone could desire to meet. He was well known in this city, where he had many friends and where he had often visited.

The Noblesville Ledger contains the following editorial on his death: "Death is sad under any circumstances, but such tragedies as that of Dr. J. B. Pettijohn are peculiarly sad. Here was a man who possessed some natural elements of a brilliant and pleasant character, but whose passions and appetites were stronger than his judgment and will power. Poor 'Jeppha'! His tongue is stilled, his pen laid down. Life's checkered course is ended. Let the broad mantle of charity be thrown over his errors and let us remember him for his sunshine and cheer of his life."

A MONSTER K. OF P. EVENT

Knights of Pythias from all over Indiana will go to Marion on May 24th to witness the third degree work of the famous degree team of Dayton, O., on the occasion of the big jubilee.

It is stated that 100 candidates will be given the first rank and not less than fifty the third rank. It will be one of the biggest Pythian affairs that ever took place in the State. Here is a chance for local Pythian enthusiasts to attend a big meeting and witness exceptional fine work.

British South Africa has a population of 1,133,756 white people and 3,308,355 colored.

SENIORS GIVE THEIR PLAY

City Opera House is Crowded
to the Limit for "Merchant
of Venice."

Acting by Students Very Good—
Audience Kept in an
Uproar.

It is our belief that every one is destined to some purpose in life. During its high school career it may have been somewhat difficult to determine to just what line of work or study the class of '05 was destined, but we rejoice to be able to state that its friends have now not the slightest anxiety or fear as to the future of the class. "The Merchant of Venice Up-to-Date," which the '05 graduates presented last night at the city opera house, predicted their fate. Surely nothing short of Shakespear's dramas should be their aim in dramatism.

Should they follow this great profession, so clearly proven to have been chosen for them by fate, their life success is already assured. The cast of characters last night was well selected and each performer acted his part well. Earl Stiers, as Shylock, and Miss Hazel Carr, as Portia, were splendid, as also were John Thomas, as Gratiano, and Bertha Megee, as Nerissa. Miss Dicie Trobaugh and Warner Carmichael, as Mrs. Gobbo and Launcelot, made a great hit. Antonio and Jessica presented by Roy Aldridge and Miss Aileen Wilson, received great applause. Miss Orma Innis made a splendid Miss Threddee, in the character of a school mistress, and Miss Anna Caldwell took the part of Portia's maid admirably.

The affair was a decided success and the public was delighted with the rendition. Mr. Jesse Pugh, who trained the class, deserves much credit for his ability shown in the play. The net proceeds were \$80, and the class will probably make a fine present to the schools to remind them of the hit of 1905, "The Merchant of Venice."

TELEPHONE CO. HAS TROUBLE

Boys Shoot Cable With Rifles—
the Leakes Have Been
Repaired.

The Rushville Co-Operative Telephone company is having its troubles these days. For the past ten days a large number of phones have been out of service on account of a wet cable in the alley between Perkins and Main streets. The leak could not be repaired on account of the continued rainy weather and no effort was made toward fixing it until Friday afternoon. At that time the defective cable was cut out and five feet of new cable was put in at a point directly in the rear of George W. Young's residence.

No sooner had this been done until another cable in the alley between Fourth and Fifth streets showed up defective. At a point directly in the rear of J. W. Hogsett's residence, a bullet was found imbedded in the leaden cable. This was removed and the hole patched up.

As in this case, the trouble was caused by some one shooting perhaps at a bird. This thing has begun to occur so often that the telephone company intends to prosecute any person who is guilty of the offense. A person could not only be prosecuted for malicious destruction of property, but for shooting firearms within the city, which is a direct violation of the city ordinance.

The story and a half house in Milan, O., where Thomas A. Edison was born, is still standing, though not fit to occupy.

LESSENER WORK.

U. S. Express Company Adopts a
New Method of Carrying on
Business.

The United States Express company has adopted a new method for carrying on its business, lessening the work of the employees a great deal. Under the new arrangement, three way bills are made out, one going to the district superintendent, one accompanying the shipment and one filed at the shipping point. All three bills are made at once, and the old custom of copying in special books is done away with.

In delivering an express package the way bill is receipted by the consignee instead of the in-bound book. The new system was recently put into effect in the local office and it is quite successful.

MISS COLEMAN ARRIVES HOME

Rushville Girl Who Has Been
in the Philippines as a
Teacher.

Miss Effie Coleman arrived this morning from the Philippine Islands for a visit with her mother, Mrs. Emily Coleman and family. Miss Coleman says she did not become sea-sick at all on the voyage, and enjoyed the steamer trip very much, but found the trip from San Francisco somewhat tiresome.

She seems to like her work in the Islands and says it has been a novel and interesting experience for her. Miss Coleman is the teacher of history and civil government in the State school at Manila.

The school system in the Philippines bears some similarity to our own system; the island is divided into districts or provinces, each having its provincial schools, and then there are the State schools, somewhat like our State universities. It is one of these latter institutions that Miss Coleman is teaching.

She has also had charge of the girls' home at the school, which corresponds to a girls' dormitory in our colleges. The Filipinos have a very peculiar custom, which, although a trifle disagreeable to the young ladies, is in a measure commendable to our people. The parents do not allow the young girls to associate with their gentlemen friends, as our people do. If a young man should meet a young lady on the street, whom he does not know, perhaps, but thinks very beautiful and attractive, he writes her a most ardent love letter. This she secretly answers if she is favorably inclined to the young man's attentions, and their love affairs are carried on absolutely without the knowledge of the girls' parents, else it would be broken up immediately. Or if a young gentleman should be acquainted with a young lady and her family, he might be permitted to call on her, but only in the presence of her family. These conditions make the parents loath to send their daughters away from home to a school, and they would not permit it to occur at all under the conditions which accompany an American girl at boarding school.

They have a home for their girls at every State school, where they are taken care of just as they are in their homes. It is this sort of a home at the Manila State school of which Miss Coleman has charge.

The school terms in the Philippines is 40 weeks, a vacation of 10 weeks being granted in the hot season. Miss Coleman will probably remain at her home until August 1st and then return to Manila and resume her work.

THE FIRST GREAT AMERICAN ROAD

Travel in the Olden Times Compared With the Present
Time.

When the panic of 1837 swept over the country the National road was barely half-way through Illinois. No work was done on it after 1814. Two years before, however, a line of stages and post routes had been started from Cumberland in Maryland, to Terre Haute in Indiana, from which latter place there was a tri-weekly service for passengers and mail to Springfield, Ill. This marked the first overland travel from east to west. Passengers and mailbags were jolted along in cumbersome coaches, each with four strong horses. On account of the high rate, travel was confined mainly to the merchants and lawyers. The passenger, with allowance of fifty pounds of baggage, paid at the rate of 10 cents a mile. It is noted that Clay and Lincoln were among the frequent passengers. But those old days are past and gone. Then it cost \$5 or \$6 to get from Indianapolis to Lafayette and it required two days to make the trip. Now a citizen of Indianapolis can come to Lafayette and return sober for \$1, on almost any Sunday in the summer time.

SHE HAD HIM THERE.

A young man in Winfield who had not been married long remarked at the dinner table the other day: "My dear, I wish you could make bread such as mother used to make." The bride smiled and answered in a voice that did not tremble: "Well, dear, I wish you could make the dough that father used to make." The Winfield (Kan.) Tribune adds that the bread and dough question hasn't come up for family discussion since.

JOHANN HOCH MUST HANG

And He Would Like to Have
It Over in a Hurry He
Says.

Chicago Jury Makes Quick Work
With the Case of Wife
Murderer.

Chicago, May 20.—Johann Hoch, who by his own confession is several times a bigamist, and who is charged by the police with having married at least forty women in the past fifteen years, was found guilty of murder and the death sentence recommended, by a jury in Judge Kersten's court. The crime for which Hoch will be led to the gallows was the murder of his last known wife, Mrs. Marie Welcker-Hoch. Hoch had been married to this woman but a few days when she became suddenly ill and died. He then formed an alliance with the sister of the dead woman, Mrs. Fischer, and, securing the latter's money, fled from Chicago. This woman, in quest of revenge, notified the police that Hoch had poisoned her sister and a search for Hoch was begun. He was found two weeks later in New York and brought back to Chicago and confronted by several of his supposed wives. During the trial expert testimony was offered by the state that Hoch had poisoned the woman by administering arsenic.

The verdict was one of the quickest on record in Cook county, the jury having reached a decision in less than half an hour. Three ballots were taken. The first ballot was unanimous as to Hoch's guilt and then a ballot followed as to the punishment to be inflicted. This ballot showed ten in favor of the death penalty and two for life imprisonment. A third ballot resulted in the twelve jurymen voting for the death penalty.

"Well, I guess it's all off with John," groaned Hoch as the verdict was read in court, but it was plain he was greatly affected. He had sat in a stooping position, but when the dreaded word "death" was reached he turned pale, stared hopelessly at the jurors and then sank limp in his chair.

Hoch's attorneys will ask for a new trial, although the condemned man, after reaching his cell, declared he was ready to die and would be better satisfied if they did not make the effort. "I wish they would hang me tonight, now that I have been found guilty," declared Hoch. "I am not afraid to die and the sooner it is over with the better."

TALKING IT OVER

Apparently Final Four Parlers
in the Chicago Strike—the
Situation.

Chicago, May 20.—All the indications today point to the end of the teamsters' strike within the next twenty-four hours, it being predicted by both the employers and the labor leaders that the trouble will be over within that time. President Shea of the teamsters' union and Attorney Mayer, who has full authority to settle the strike from the employers' association, were locked together in a room at the Auditorium Annex for some time. They refused to state what matters were under consideration, but from other sources it was learned that President Shea was making an effort to secure the best terms possible for his men before consenting to recommend that the strike be called off. After the meeting between Shea and Mayer, the former reported directly to the teamsters' joint council. The sole power of calling off the strike rests with this body, and it is freely predicted on all sides that it will soon announce that the end has come.

BACCALAUREATE SERMON TO CLASS

Rev. W. W. Sniff Will Deliver it
at the Christian Church To-
morrow Evening.

Rev. W. W. Sniff, pastor of the Main Street Christian church, who has been chosen to preach the baccalaureate sermon to the '05 graduating class of the Rushville high school, will talk to them tomorrow evening at 7:30 o'clock at the church on the subject, "Let Your Light Shine." Following is the program for the services: Organ Voluntary, "The King of Love my Shepherd is," Shelly, choir. Scripture Lesson and prayer, Rev. W. P. McGarey. "Oh, For the Wings of a Dove," Mendelssohn, choir. Sermon, "Let Your Light Shine," Rev. W. W. Sniff. Vocal Solo, Mr. B. F. Miller. Benediction.

G. U. O. OF O. F. MEMORIAL DAY

Colored Brethren to Have a
Big Time Tomorrow in
This City.

The Grand United Order of Odd Fellows will hold their annual Thanksgiving services tomorrow. Many visitors are expected from Connersville, New Castle, Knightstown, Shelbyville and other surrounding towns.

At two o'clock the Odd Fellows will form in line on Second street. They will move east to Main street, north to Seventh, east to Willow, north to Eighth, then east to the Second M. E. Church, where the services will be held. The opening address will be made by Allen Daniels, master of ceremonies. Following is the program: Song by Choir. Scripture Reading, Rev. T. T. Carpenter. Prayer, Rev. N. T. Lane. Song, choir. Paper, read by Miss Nannie O'Rear. Short address by Jas. A. Johnson, District Grand Master. Song, choir.

Rev. E. D. Skelton, of Cincinnati, will deliver the sermon. Closing song by the choir, "God be With You Till We Meet Again." The Order will then form and return to their hall.

CENTRAL UNION MAKES A MOVE

Takes Over the Independent
Service in Four Northern
Counties.

The Action is Considered to be
a Challenge to Fight in
Indiana.

A deal has been closed whereby the Central Union Telephone company has obtained control of the United Telephone company, a large independent organization which held a practical monopoly of the telephone business in Wells, Grant, Blackford and Huntington counties. The Central Union thereby enters a field that has been held reserved for the independent companies, bringing the fight between the independents and the old company to a crisis in Indiana, as the independent managers assert that they will immediately lay plans to enter the field occupied by the United Telephone company, and put competitive plants in the cities now occupied by the Central Union through it.

The United Telephone company operates 5000 telephones in Marion, Hartford City, Huntington, Bluffton, Montpelier and Upland, and has toll-line connections with a great many rural companies in the four counties in which those cities are situated. It has always been operated strictly as an independent company. So greatly has the action of its managers in disposing of the plant been resented by other independent managers that the allegation is made that the independents "have been sold out by their own people." Hugh Dougherty, formerly of Bluffton, but now of Indianapolis, was president of the United Telephone company.

The Central Union Telephone company had not had local exchanges in any of the cities served by the United company, except in Marion. With the control of the United company now in its hands, the Central Union will hold an absolute monopoly of the telephone situation in the counties of Grant, Wells, Blackford and Huntington. At Marion the two exchanges will be consolidated, so that customers of both companies may be served by the Central Union exchange.

George W. Beers, the pioneer builder of independent telephone plants in Ft. Wayne, Muncie, Anderson, Ellettsville and other gas belt towns said of the transaction:

"The United Telephone company has been very prosperous, and has ranked as one of the best of the independent lines. It was no doubt bought by the Bell interests for the purpose of wrecking it and holding it up as a horrible example of an independent telephone failure. The Central Union has no doubt paid a price that was so much a temptation that even an Indianapolis banker could not resist throwing down his hands."

TO JUDGE HORSES AT WORLD'S FAIR

A. P. Walker, of This City, Has
Been Offered a Position—
Will Accept.

A. P. Walker, one of the proprietors of the Jersey Isle stock farm, north of town, and one of the best judges of horses in the county and perhaps in the State has received a flattering offer from Superintendent of Live Stock Ladd of the Lewis and Clark Exposition to be held this summer at Portland, Oregon. Mr. Ladd wishes Mr. Walker to judge the horses, all breeds, at the Exposition and offers him a good price for his services. As yet Mr. Walker has not accepted, but he will do so providing that arrangements satisfactory to both parties can be made.

RUSHVILLE, IND., MAY 20, 1905.

The distance from New York to San Francisco by way of Cape Horn is 14,800 miles, and yet a vast tonnage of freight is carried over that route. The Panama canal will reduce that distance to something like 5,000 miles, and the time of making the voyage from three months to 10 or 15 days.

Ten bankers of the State of Ohio are serving time in the penitentiary. If the stealing of large amounts is as dangerous as petit larceny, it would seem that there is quite a change in public sentiments. The time was when thieves on a large scale were looked upon as heroes.

Too good to be true is the report that two Cleveland physicians have discovered a remedy for drunkenness that makes the "Keeley cure" look like thirty cents. It is claimed that an intoxicated man taking it will be sobered within an hour and effectually cure the drink habit. Tests have demonstrated that a man will be brought out of delirium tremens within sixty minutes, his appetite for liquor forever gone.

A FORMAL CANDIDATE

Bookwalter Will Make Another Try for Indianapolis Mayoralty.

Indianapolis, May 20.—Former Mayor Bookwalter today formally announced his candidacy for renomination, and in doing so briefly outlined the opinion that he can govern the city in a way that will meet with general approval. He declared he is not a candidate of any faction, and that he enters the contest without any entangling alliances. He admitted his strong Republican prejudices. He stated that he found the city in a quagmire of indebtedness when he became mayor, but by good business management he relieved the situation. Regarding the desertion of his former lieutenants to Frank D. Stalnaker, his opponent, he said: "I have no criticism to offer as to the conduct of some of my good friends in espousing the cause of Mr. Stalnaker. They have the right and I respect them in it, but should they succeed in nominating him, as they have declared to me is their purpose, there will not be found anyone more willing to stand on the firing line than I am." This announcement disposes of the report that Bookwalter would not enter the race.

The gas question may become a large factor in determining the result of the city campaign here. The people are anxious to secure fuel gas at a lower rate. The company now in the field has a monopoly and is charging 90 cents a thousand feet. There is a desire for 50-cent gas, and the present administration will advertise a franchise for a new company. It may take an option on the plant of the Consumers' Gas Trust company and turn it over to the persons who get the new franchise. The agitation for cheaper gas promises to become an issue in the campaign. If it grows intense Mayor Holtzman will be greatly helped, as he had taken a prominent part in the movement. The city is normally Republican and with no local questions for consideration, the Republicans ought to win hands down, but with the question of cheaper gas paramount it would cause an element of doubt to enter into the situation. Already there are a number of candidates for councilmen who are running on a cheaper gas platform.

Word was received here today that J. C. Powell of Logansport, better known as "Si" Powell, will be a candidate for the Republican nomination for auditor of state next year. He was a member of the state senate during the last two sessions and has enjoyed considerable popularity because of his genial qualities. He informed some of his friends here a few weeks ago that he had decided not to run for the office, but it is said he is quietly informing them now that he may enter the race. The only avowed candidates now are John Billheimer, deputy auditor, and Frank Doran of Laporte, who was a candidate for nomination in 1902. The entrance of Powell will complicate matters, and it may also induce others to become candidates.

The Indiana St. Louis World's Fair commission held its final meeting today at the Commercial club in Marion. It went there because it is the home of Acil Alexander, who acted as assist-

ant. Alexander had charge of the Indiana building during the exposition and looked after most of the details in arranging this state's exhibit. His work was largely responsible for the success of the commission. The latter will have nearly \$16,000 to turn back to the state treasury.

George Hitz, independent candidate for mayor, was stricken with congestion of the brain yesterday afternoon, and his family fear spinal meningitis may develop. His condition is very serious. Hitz received nearly 6,000 votes two years ago and was largely instrumental in defeating the Republican ticket.

TUBERCULOSIS SANITARIUM

Will Be Established in Indiana by Anonymous Philanthropist.
Washington, May 20.—The first annual conference of the National Association for the Study and Prevention of Tuberculosis ended last night with a banquet. Two days have been occupied with the presentation of views by prominent members of the medical profession from all sections of the country. As to treatment there has been no division among the speakers as to the efficacy of the open air and sanatorium methods which are generally combined. The progress of this method was widely discussed. Dr. J. N. Hurty, secretary of the Indiana state board of health, announced that in his state a philanthropist has contributed \$50,000 for a sanatorium which would be built at once and that this contributor, whose name he was not at liberty to state, had promised to secure another amount of the same size. William H. Allen of New York told of the experiments in that city with the seaside treatment of tuberculosis for children. One hundred and fifty children have been treated in this manner, he said, and the success has been phenomenal.

Hurled to His Death.

Michigan City, Ind., May 20.—Theodore Anderson, unmarried, son of P. C. Anderson of the firm of Anderson & Sons, brick manufacturers, at Chesterton, was killed. He was the engineer in the factory, and found that a pulley had come loose above the engine. He attempted to fasten it and was caught by a large belt and thrown against the flywheel, by which his body was terribly crushed and mutilated.

SAVED BY WATER

Passengers Escape Injury in an Unusual Manner.

Hammond, Ind., May 20.—A ditch half filled with water probably saved the lives of many passengers in the sleeper attached to a fast Monon train. A rail was broken when the train was near Grassmere, south of Hammond, and the sleeper, carrying twenty-two passengers, which was on the end of the train, was thrown from the track. The car went down a steep embankment and it landed in about three feet of water in the ditch. The car was overturned when it struck the water and it lighted on its side. The water served as a cushion, and the car skinned along the surface until the pressure of the water brought it to a stop.

The passengers were shaken up and a number of them received minor injuries, such as cuts from broken glass and severe bruises, but none was seriously injured. There was a wild scramble to escape when the water rushed into the car. The windows in the side of the car turned uppermost were broken out and the passengers fairly fought to escape until assured the danger was over. They were dragged out one at a time until all were rescued.

The engine and all the other cars in the train passed the broken rail in safety. The train was running between fifty and fifty-five miles an hour and it was stopped and backed up to the scene of the wreck as quickly as possible. The passengers from the wrecked car took seats in the other cars and the train continued on its journey.

Can't Afford the Cost.

Richmond, Ind., May 20.—Edgar Hitt, expert accountant, who is investigating the records of Daniel Petro, the missing clerk-treasurer of Cambridge City, finds that the shortage will not exceed \$4,000. Mr. Hitt filed a report at a meeting of the town council last night. So far as the town there is no effort to trace Petro, the Cambridge City town board feeling that the corporation has already suffered heavy loss, and that it cannot afford to pay a reward for the apprehension of the fugitive.

Boy Shockingly Maimed.

Vincennes, Ind., May 20.—Oris Foster, the twelve-year-old son of Mr. and Mrs. Jesse Foster, lost both hands at the plant of the Vincennes paper mills. His fingers were caught between two massive rollers, all of them and a portion of his hands being torn from his arms. His hands were amputated.

Guarded at His Home.

Morocco, Ind., May 20.—James Portwood of Brook, who was shot three times by James Horn recently as the result of a quarrel, and who was thought at the time to be fatally wounded, is convalescing. Portwood's home is guarded by the authorities, in order to prevent his escape.

Fatal Accident on Vandalia.

Terre Haute, Ind., May 20.—As the result of an accident to a freight train on the Peoria division of the Vandalia railway at Oakland, Ill., Richard Hultz, brakeman, was killed. He was a man of family, with a wife at Terre Haute.

A NAVAL MYSTERY

Disappearance of Rojestvensky's Fleet Gets Admiralties to Guessing.

HAS HE EVADED TOGO?

In Some Naval Quarters the Belief Obtains That the Russian Admiral Has Slipped Through.

Intense Interest Is Manifested in the Game of Hide and Seek in the Eastern Sea.

Paris, May 20.—The apparently complete disappearance of the Russian far Eastern fleet leads to the belief either that a battle is imminent or that Admiral Rojestvensky has succeeded in establishing a naval base. On the other hand it is pointed out here that the position of the fleet May 16 in latitude 13:30 and longitude 111:30 indicated that it might have been decided to follow a course north of Luzon into the Pacific instead of going through the straits of Formosa, where Admiral Togo is believed to be awaiting Admiral Rojestvensky. It is maintained that the Japanese difficulties have been increased by their inability to determine whether the Russians are proceeding unitedly or have divided their fleet into two squadrons. Some experts maintain that the fleet has been divided for the purpose of permitting one division to reach Vladivostok, while the other occupies the attention of Admiral Togo. Naval circles here are disposed to criticize the Japanese in failing to harass Rojestvensky's transports during the lengthy period of taking on supplies. The results of Rojestvensky's movements are being awaited with intense interest in official circles.

BIRILEFF HOPEFUL

New Naval Commander Has Confidence in Russia's Defeat.

St. Petersburg, May 20.—Vice Admiral Birileff, who has been named for the supreme naval command in the Pacific, will leave for Vladivostok on May 25 to assume charge there and make preparations for repairing and refitting the vessels of Vice Admiral Rojestvensky's fleet when they arrive. By imperial command Vice Admiral Birileff will have all the rights and powers of a commander of the army and the commander of the Vladivostok garrison will be subject to his orders, thereby avoiding the possibility of any conflict of authority in case of a siege, as at Port Arthur.

"I have no intention of relieving Vice Admiral Rojestvensky of the immediate command of the fleet, if he is well and able to perform his duties on his arrival at Vladivostok," said the admiral. "I have high respect for his qualifications as a fleet commander, and there will be plenty for us both to do."

Admiral Birileff, who, in spite of sixty-four years, is overflowing with energy, has the reputation of being a strict disciplinarian. He expressed himself hopeful over the prospects for the Russians in the coming naval encounter.

More Trouble for Clado.

St. Petersburg, May 20.—Further punishment is in store for Captain Clado. In spite of the command to publish no further articles without first submitting them to the admiralty, Captain Clado is said to be continuing his journalistic activity in the form of unsigned articles, and it is probable that his assignment as executive officer of the armored cruiser Gromoboi will be cancelled and that he will be publicly censured.

Russia Enters a Protest.

St. Petersburg, May 20.—The Russian charge d'affaires at Peking has informed the Chinese government that according to reports the Japanese intended removing the emperor of Korea to Japan in contravention of the treaty of Shimonooski guaranteeing the independence of Korea. The Russian government has protested against such action to all the powers.

Deadly Saloon Fight.

Coinersville, Ind., May 20.—In a fight in the Morris Wenger saloon Monroe Bloodsue, a negro, was stabbed and instantly killed by Sam Holland, also a negro. The fight was the result of an old feud. Bloodsue was fifty-five years old, and Holland forty.

The Chadwick Mansion Sold.

Cleveland, O., May 20.—The home of Dr. Leroy S. Chadwick on Euclid avenue was sold by Bankruptcy Trustee Looser for \$35,000 to the Elyria Savings Deposit Bank and Trust company, which had a claim against the property.

Boy Strikers Sentenced.

Chicago, May 20.—Seven more of the leaders of the strike at the public schools have been sentenced by Judge Mack to terms in the parental school. The boys were all under fourteen years of age, one of them being but twelve.

Fatal Labor Feud.

Elwood, Ind., May 20.—Thomas Meany shot and killed Frank Duchateau in a clash between union and non-union glassworkers.

PHILADELPHIA AROUSED

Great Gas Steal Has Thoroughly Awakened the Quakers.

Philadelphia, May 20.—The opponents to the leasing of the city gas works to the United Gas Improvement company are continuing their efforts to defeat the consummation of the deal. The committee of seventy, a municipal reform organization, and the committee of nine, appointed at a mass meeting held to protest against the lease, held a joint session and decided to call public meetings in every ward of the city, and arranged to finance the movement against the lease. A subcommittee of three was appointed to arrange the meeting. It is the plan of these organizations to bring to bear all the pressure possible on the councilmen to induce them to refrain from voting for the gas lease over Mayor Weaver's expected veto.

The mayor will be asked to defer action ten days. He held several conferences with the members of councils who voted against the lease and congratulated them for their action. The committee of nine and the committee of seventy passed resolutions commending the mayor for his attitude in the matter.

Thomas Dolan, president of the United Gas Improvement company; Israel W. Durham, leader of the Republican organization of this city, and other party leaders, refuse to discuss the situation. Members of council expressed themselves as confident that the gas lease ordinance will be passed over the mayor's veto in the event of his taking such action.

Threats Followed Arrests.

New Lexington, O., May 20.—Threats of lynching followed charges made against Jay Johnson by his sister-in-law, Beulah Tracey, aged thirteen, daughter of County Commissioner T. J. Tracey. He had taken her for a walk and the child was found unconscious on her doorstep. Johnson denies guilt.

Beef Trust Inquirers Adjourn.

Chicago, May 20.—The grand jury which has been investigating the beef industry adjourned last evening after being in session for exactly three months. It will reconvene on June 7 to vote the indictments which in the meantime may be prepared by the office of the United States district attorney.

Quick Verdict Against Russell Sage.

Nyack, N. Y., May 20.—Without a minute's hesitation the jury in the suit of Ezekiel C. M. Rand against Russell Sage, returned a verdict in favor of the plaintiff, awarding him the \$800 that he claimed the aged financier owed him for services as confidential agent.

New Salary Plan.

Columbus, O., May 20.—There is much discussion in political circles here as to the best method of fixing salaries of county officials, in case the next legislature shall pass a salary law. The plan of the common pleas judges fixing the salaries of county commissioners has been advocated, the county commissioners to fix the salaries of all other county officials. Attorney General Wade H. Ellis thinks the plan ideal, although doubting its popularity with the people.

Automobiles in Disfavor.

Dayton, O., May 20.—Charles Crocker of Centerville, while driving with his wife on his automobile near Harveysburg, Warren county, was fired upon with a rifle by an aged man near a cabin along the road. The bullet, one of the big caliber of the soft nose variety, passed through the frame of the car, narrowly missed Mrs. Crocker, and ruined a tire on the opposite side of the automobile.

LEAGUE OPENS TOMORROW

The Rushville Team, Though Crippled, Expects to Win.

The Cincinnati Athletics Will Open the Season Here—the Schedule.

The long look d for opening of the new Sunday baseball league of which Rushville is a member, will take place at League park tomorrow.

The grounds will be placed in excellent condition and barring bad weather, the attendance will be the largest and best ever witnessed at an opening game in this city or by clubs connected with it. The grounds will be rolled and smoothed off, depressions filled, the stands cleaned and improved and in every respect every provision has been made for the best exhibition of the game ever shown to its local patrons.

It will be the first introduction of the patrons of the game to a couple of the thoroughbreds of the league, and it will be league ball from the batter up to the last man down.

The locals are confident in their alignment and Manager Geraghty said today: "I think I've got a winner and I'm going to do my best to prove it to the people. If the other fellows beat me, they'll know before they're through that they've been up against something and hurt rather hard. We will be crippled by the loss of Carter, who has been compelled to quit the game on account of ill health. I intend to land a good short stop and another pitcher and utility man as soon as possible. I have strings out for several and may succeed in getting any of them. If the people of Rushville will support the team, I am confident that Rushville will land in the first division and will remain there."

As has been stated before, the League is composed of the following teams: Covington, Ky., Cincinnati Athletics, Middletown, O., Dayton, O., Reserves, Springfield, O., Hamilton, O., Krebs and Shamrocks and Rushville, Ind.

Under a sunny sky tomorrow records will, in all probability, be broken, as the fans in all of the cities are hungry for league ball, having had a short season of witnessing independent ball, which games do not entice the boys like a game where a standing is at stake.

The umpires are the best that could be procured; all have reputations second to none in this class, and all know the game from the time they call play ball until the finish. Under the instructions that have been issued to them by President Thurman players who overstep the limit in anything that is not legitimate will surely occupy the bench for the balance of the game, and rowdiness by any player will be subject to suspension for the season.

The umpires that will work at the openings are Barnett at Hamilton, Dugan at Covington, McGinness at Middletown, and Miller at Rushville. The program for the opening of the season has been arranged and President Thurman will be the guest of Manager Milders at Hamilton, and Treasurer Allan will tell the Covingtons and Hamilton Shamrocks to play ball. Secretary A. Hayes Burgess has written that he will be the guest of President Geraghty and will formally open the league here. Vice President Spinney will open the league at Middletown.

Middletown, Covington, Hamilton and Springfield all have a very strong bunch of players, and big crowds will, no doubt, witness the opening games at those places. The Hamilton Shamrocks and Dayton Reserves have both played here and the fans will no doubt remember the splendid games that they put up.

The league will open tomorrow as follows: Hamilton Krebs vs. Springfield at Hamilton, Ohio. Covington vs. Hamilton Shamrocks at Covington, Ky.

Rushville vs. Cincinnati Athletics at Rushville, Ind. Middletown vs. Dayton Reserves at Middletown, Ohio.

According to an order issued by Secretary Burgess all games will be called at 3 o'clock. Rushville will line up as follows: Wagner p, Morgan c, Pearsey 1b, Tompkins 2b, Cullen ss, Herold 3b, Kiser lf, Taylor, cf, Hendricks rf.

Three brothers named Watts are mayors in Indian Territory. Charles G. holds office in Wagoner, John W. in Sallisaw and Thomas C. in Muldrow.

The Election of Judge Foster Endorsed.

Rushville, Ind., May 19th, 1905. Dear Editor: I am very much pleased at the result of the special election just held in the First District. The election of Judge Foster means prosperity unbroken in our great State and district. I was confident that we could not have done otherwise, for we, the first district surely do love and respect Hon. Jas. A. Hemenway and the voters showed their love by electing Hon. Judge Foster to fill his place.

No other man except a royal Republican, as Judge Foster, could have been elected. I also give my county, viz. Spencer, and Hon. John Brown, our county chairman, praise for the large majority they give; but our county always stands by a royal and honorable candidate. Now we are sure that our Jim, from Rushville, is well pleased. I am, and believe that our great God is smiling on the voters for their loyalty. Our Governor will not have to be ashamed—that is, the commission will be given to another good and faithful Republican. The Negro is always in time to vote for a man of good principle and sound reason and one who make laws for their protection. I love a party that makes laws and sees to it that they are enforced for the protection of all citizens. I am for a "square deal."

Hotel accommodations are under capable management. Varied recreation is offered: outdoors on the tennis courts and croquet lawns; indoors in the clubhouse where there is a diversity of amusements and games. For particulars about fares and time of trains apply to ticket agents of Pennsylvania Lines.

SEEING AMERICA.

Wonderful Scenic Trip Across the Rocky Mountains to Oregon Exposition.

In certain respects the excursions to the Lewis and Clark Centennial Exposition, Portland, Oregon, via Pennsylvania Lines, beginning May 23d and continuing through the summer, offer advantages never before presented to Exposition visitors. The trip to the Oregon Exposition, in addition to the attractiveness of the extensive exhibits, includes the journey through the scenic wonderland of the Rocky Mountains and the Cascade Range, and what American has not looked forward from the days of the geography class in school to the time when those great sights should be seen in reality? The time was never so favorable as now. The trip may be made less expensively than ever. For only a slight difference in fare, tourists may extend their trip to San Francisco and Los Angeles. The return trip may be made over a different route, enabling travelers to view much more of the West. For full particulars, fares, dates of special excursions to Portland on account of Conventions, through time and passenger service apply to ticket agents of Pennsylvania Lines.

The student of the Bible and anyone interested in this greatest of all lands cannot afford to miss his lecture.

SOME SMILES.

THE RULING PASSION.

"You probably don't remember me," began the self-made man proudly, "but twenty years ago, when I was a poor humble boy, you gave me a message to carry."

A WARNING.

When a girl begs a young man not to spend so much money on her, that is one sign she expects to one day marry him, though the idea may not have entered his head.

COMMON TO THE SEX.

"Old maids who have been disappointed in love should remember that there is are thousands of married women in the same boat," remarked the Pomponick sage.

SAYS DINKELSPIEL.

NEGRO MURDERED AT CONNERSVILLE

Sam Holland Resents Attack of Monroe Bloodsue and Kills Him With a Razor.

As the culmination of a quarrel Monroe Bloodsue, colored, picked up a poker and struck Sam Holland, another negro, in Morris Wenger's saloon at Connersville Thursday night. The latter took a razor from his pocket and with one slash almost severed Bloodsue's head from his body, causing instant death.

Holland turned to the bar, finished drinking his beer and then quietly walked out of the saloon, remarking, "That's a dead nigger." The dead negro lay in a pool of blood on the floor for some time before spectators in the saloon could gather their wits to summon the police. Holland gave himself up and was taken to jail.
